

## **ASSISTANT PROJECT MANAGER**

1 posto

**Scadenza:** 15 Marzo 2020

The Institut Laue-Langevin (ILL), situated in Grenoble, France, is Europe's leading research facility for fundamental research using neutrons. The ILL operates the brightest neutron source in the world, and welcomes over 2000 visits of scientists per year to carry out world-class research in a wide variety of scientific fields. Funded primarily by its three founder members: France, Germany and the United Kingdom, the ILL has also signed scientific collaboration agreements with 12 other countries. We currently have a vacancy: Assistant Project Manager.

The ILL is member of the European Intergovernmental Research Organisation forum, EIROForum, which brings together eight of Europe's largest research organisations. The ILL is also member of LENS, the League of advanced European Neutron Sources a not-for-profit consortium working to promote cooperation between European-level neutron infrastructure providers. The ILL will chair EIROforum from July 2020 to June 2021 and LENS until September 2021 and is looking for an Assistant project manager to reinforce its management team during the presidencies. On behalf of the partnership, EIROforum and LENS entertain close links with the European Commission, the executive body of the European Union (EU). Underpinned by a Statement of Intent, the EIROforum cooperation is practical in nature, focussing on exchange of information and joint actions in areas such as mobility and human resources, public awareness of science and technology transfer. The LENS consortium places emphasis on the relationship between neutron user communities and funding organisations, continuous improvement of neutron source facilities, optimising resources between and aligning policies among partners – all to ensure excellence to the communities they serve.

**Duties:** You will coordinate the projects for the ILL and provide administrative support for the management team with the following duties and responsibilities: Taking on detailed project work (mostly related to EU policy) to help the management team to prepare meetings, reports and presentations; Planning and organising meetings and events (at the ILL and off site in contact with outside organisations); Detailed minute-taking during conference calls and Face-to-Face meetings, drafting and formatting of documents in English; Occasionally travelling with the management team to provide general assistance and minute-taking during meetings.

**Qualifications and experience:** University diploma in political studies / European Governance or similar; Minimum 2 years of experience in a similar position, beginners or reconversion welcome; Excellent level of spoken and written English; Capacity to take

initiative and work autonomously being part of a team; Sound organisational and communication skills; Proficiency in MS Office applications and experience with the conventions for presentation and layout as well as the operation of video conference software; You are able to prepare and produce documents quickly and have impeccable spelling; You have a meticulous approach to your work and are able to show tact and diplomacy; The main strengths you will bring to this position are responsiveness, flexibility and a problem-solving attitude.

**Language skills:** As an international research centre, we are particularly keen to ensure that we also attract applicants from outside France. You must have a very good knowledge of English (preferential native speaker) and be willing to learn French (a language course will be paid for by the ILL). Knowledge of German would be an advantage.

**Notes:** This post is a fixed-term position (18 months).

**Benefits:** Generous company benefits (expatriation allowance), relocation assistance and language courses may be offered (for more information, please consult our employment conditions).

**How to apply:** Please submit your application on line, no later than 15.03.2020, via our website:

## **INSTRUMENT TECHNICIAN**

1 posto

**Scadenza:** 8 Marzo 2020

The ILL is a fundamental research institute founded and financed by France, Germany and the United Kingdom. It is Europe's leading centre for research using neutrons and operates the brightest neutron source in the world, reliably delivering intense neutron beams to 40 unique scientific instruments. The Institute receives over 2000 visits a year from scientists requiring its facilities to carry out world-class research in areas as varied as solid-state physics, crystallography, soft matter, biology, chemistry and fundamental physics. The Project and Techniques Division, which is responsible for the development of the ILL's scientific instruments and for technical support, currently has a vacancy in its Neutron Optics Service for an: Instrument Technician

### **Duties:**

- You will join the Monochromator Group, a five-person team responsible for the production of crystals for the Institute's neutron monochromators.
- You will be responsible for a neutron diffractometer devoted to the characterisation of single crystals.
- Your main duties will include: the preparation and characterisation of mosaic crystals for neutron monochromators; ensuring the maintenance and proper working order of the diffractometer; mounting and aligning crystals on the mechanical assemblies of the monochromators; ensuring compliance with the safety regulations in force at the Institute.
- You will also carry out the maintenance of the ILL's monochromators and assist in the projects to develop new optical devices for the neutron beams.

### **Qualifications and experience:**

- Level 4 qualification (NVQ, BTEC HND or equivalent) in applied physics or materials engineering.
- You are particularly interested in the science of materials and the characterization of their properties.
- You are able to work independently, with a methodical and meticulous approach to your work and a keen eye for detail.
- Good teamwork skills are essential to be able to report on and share the results of your work.
- You are able to use your ingenuity and creativity to satisfy unique and changing demands.
- A basic knowledge of mechanical engineering (conventional machining) and proficiency in SolidWorks would also be an asset.

## **Assistente gelatiere, Camerieri, Barlady, Barman, Coffee Maker**

9 posti

**Scadenza:** 31 Marzo 2020

Si ricerca urgentemente per gelateria artigianale Cocktail Bar a Porto San Paolo (OT)

1 Assistente gelatiere

4 Camerieri esperti in gelateria

2 Barlady/Barman

2 Coffee Maker

**Descrizione:** Gelateria Artigianale Cocktail Bar RISS ubicata a Porto San Paolo (OT) cerca personale specializzato per la prossima stagione estiva 2020.

**Requisiti:** Ottimo inglese (lingua di lavoro), gradita la conoscenza di un'altra lingua tra francese, tedesco, russo. Esperienza nella mansione di almeno 5 anni, Diploma di Scuola Alberghiera.

**Tipologia di inserimento:** Lavoro stagionale estivo (maggio/ottobre 2020), garantito alloggio in caso di provenienza da altre regioni o città sarde. Eventuale materiale video che attesti le proprie competenze e capacità, saranno considerate un plus. Contratto a tempo determinato full time.

**Modalità di candidatura:** Inviare il curriculum aggiornato con foto a [info@gelateriariss.it](mailto:info@gelateriariss.it) e p.c. a [eures.cpi.omegna@agenziapiemontelavoro.it](mailto:eures.cpi.omegna@agenziapiemontelavoro.it).

## **POST-DOCTORAL FELLOWSHIP IN SOFT CONDENSED MATTER THEORY**

1 posto

**Scadenza:** 15 Marzo 2020

**Duties:** Working within our theory group, your research program will be focused on soft condensed matter theory and modeling (including applications to soft materials and biophysics). Of particular interest are projects in the field of polymer, biopolymers or protein modeling, but proposals in all fields of soft matter will be considered.

The successful candidate is expected to carry out a research program in broad relation to the experimental activities at the institute.

### **Qualifications and experience:**

- PhD in physics, biophysics or physical chemistry.
- Strong background in theoretical soft matter and associated simulation methods.
- Knowledge of standard calculation methods (molecular dynamics and Monte Carlo).
- Knowledge appreciated in some of the following fields = modern parallelisation and programming methods (open MP, MPI...).

**Language skills:** As an international research centre, we are particularly keen to ensure that we also attract applicants from outside France. You must have a sound knowledge of English and be willing to learn French (a language course will be paid for by the ILL). Knowledge of German would be an advantage.

**Notes:** Post-Doctoral contract of 18 months, renewable for a further 18-month period. Only candidates holding a PhD obtained less than 2 years ago are eligible for post-doctoral positions. This post is located in Grenoble, France and can be subject to administrative screening. Starting date is flexible (ideally between May 2020 and September 2020).

Further information can be obtained by contacting Prof. Jean-Louis BARRAT, tel.: +33(0)4.76.20.74.71, e-mail: [barrat@ill.fr](mailto:barrat@ill.fr) (please do not send your application to this address).

**Benefits:** Generous company benefits (expatriation allowance), relocation assistance and language courses may be offered (for more information, please consult our employment conditions).

**How to apply:** Please submit your application on line with a list of publications, a two pages research statement and the names of 3 references, including one from your present work place, no later than 15.03.2020, via our website: [www.ill.eu/careers](http://www.ill.eu/careers) (vacancy reference: 20/07) and [CCeures@regione.piemonte.it](mailto:CCeures@regione.piemonte.it).
